

SIDE EVENT AGENDA

NAVIGATING THE WAY FOR A SEA OF BIODIVERSITY

16.04.2024, 15:00h, Book Castle

Lead: Natural Environment and Climate Change Agency

The side event aims to propose a nexus system for protecting restoring and retaining marine ecosystems.

NECCA through its actions is bringing together scientists, politician, public and private sector and a wide variety of stakeholders and expertise. Through this side event “Navigating the way for a Sea of biodiversity” the roadmap for a comprehensive approach on marine protected areas is highlighted.
